

Forum and Resource Certificate

The **Massachusetts Board of Registration in Medicine** has approved *Forum*, a quarterly publication, and *Resource*, a bimonthly audio CD, as qualifying for the equivalent of Category 1 risk management credit.

Individual Category 1 credits may be earned as follows:

- 0.5 credit for either reading one issue of *Forum* or listening to one *Resource* tape.
- Risk Management Category 1 equivalency credits earned in this way may not be applied toward the other 36 non-risk management Category 1 CME credits that must be obtained during each biennial license renewal cycle.

Excess credits earned by reading *Forum* and listening to *Resource* may be applied toward the 6 Category 2 risk management or any Category 2 credits that must be earned every two years. To calculate the number of Category 2 credits earned, physicians may award themselves one credit for each hour spent reviewing these materials.
